

Licence to publish in *Science in School*

Before we can consider your article for publication, we need your acceptance of our copyright terms.

If your article is accepted, it will be published on the *Science in School* website (in HTML and PDF format) and may be included in the print issue. Translations of your article may also be published on the *Science in School* website.

The *Science in School* editorial team retains the right to edit the article to conform to the house style of the journal.

Copyright for text

Each article published in *Science in School* is assigned one of two Creative Commons copyright licences. Under these licences, the author retains the copyright of the article, but others may re-use the text (not the images) for non-commercial purposes as detailed below.

- Teaching materials and project articles are assigned the ‘attribution non-commercial share alike’ licence. This allows others to ‘remix, tweak, and build upon your work non-commercially, as long as they credit you and license their new creations under the identical terms. Others can download and redistribute your work, but they can also translate, make remixes, and produce new stories based on your work. All new work based on yours will carry the same license, so any derivatives will also be non-commercial in nature.’
- Other articles are assigned the ‘attribution non-commercial no derivative’ licence. This allows others to ‘download your works and share them with others as long as they mention you and link back to you, but they can't change them in any way or use them commercially’.

Further information is available under: www.scienceinschool.org/copyright/ and <http://creativecommons.org>.

Copyright for images

Images used to illustrate articles in *Science in School* are not affected by the Creative Commons copyright licences and may not be re-used by others without permission of the copyright holder.

If you do not own the images that you provided with your article, please get permission from the person who does, and send us their full name and affiliation. You will also need their permission for diagram labels to be translated, if necessary. All images will carry the credit line ‘Image courtesy of <copyright-holder’s name>’.

For *information only* (e.g. as an example of the sort of image that could be used), you may submit images that you do not have permission to reproduce. These images should be clearly marked (in the caption) ‘not suitable for publication’.

Agreement

Title of article (provisional): _____

Name(s) of author(s): _____

Address of signing author: _____

Email address of signing author: _____

I confirm that I am the copyright holder of the article^{*}. If the article has multiple authors, I confirm that the other authors of the article agree to the copyright licence and that I am signing on their behalf.

I confirm that I am the copyright holder of the images intended for publication (all others must be marked 'not suitable for publication'), or that I have the permission of the copyright holder to reproduce the images in *Science in School*⁺.

(Optional) If my article is accepted for publication, I **agree to translate** the final version into _____ (native language) for publication on the *Science in School* website.

(Signature)

(Date)

^{*} If your employer claims copyright on articles you write, you must get their permission. If your article has been published substantially elsewhere, you must confirm that the other publisher allows you to republish it in *Science in School*.

⁺ If you submit photographs of children to illustrate your article, you will need to get the permission of the children's parents or guardians.
