

Science in School covers...

- Cutting-edge science
- Teaching materials
- Science education projects
- Education research and policy
- Interviews with teachers and scientists
- Reviews of books, films, websites and other resources
- News and events for teachers and schools
- An online forum for communicating across both across Europe and across disciplines.

To subscribe...

Science in School is freely available online:
www.scienceinschool.org.

Register to:

- Receive an email alert when each issue is published
- Request a free print subscription (limited availability)
- Post your comments on articles in **Science in School**.

How can I get involved?

Science in School relies on the enthusiastic involvement of teachers, scientists and other experts in science education. You can help in a number of ways:

- Submit articles for publication
- Join our reviewer panel and help us decide which articles to publish
- Translate articles into your own language, for publication online
- Help raise awareness of **Science in School**.

For further details, see:

or contact the editor:
editor@scienceinschool.org.

Science in School is published by EIROforum and is based at the European Molecular Biology Laboratory in Heidelberg, Germany. It is a non-profit activity, part of the NUCLEUS project supported by the European Union.

EIROforum is a collaboration between seven European intergovernmental scientific research organisations to pursue joint initiatives, combine resources, and share best practices.

The seven EIROforum members are:

- European Organization for Nuclear Research, CERN
- European Fusion Development Agreement, EFDA
- European Molecular Biology Laboratory, EMBL
- European Space Agency, ESA
- European Organisation for Astronomical Research in the Southern Hemisphere, ESO
- European Synchrotron Radiation Facility, ESRF
- Institut Laue Langevin, ILL.

These organisations develop and operate some of the largest and most advanced research infrastructures in the world, enabling European scientists to perform world-leading research.

Science in School

- Is a quarterly European journal to promote inspiring science teaching
- Encourages communication between teachers, scientists and everyone else involved in European science education.
- Addresses science teaching both across Europe and across disciplines
- Covers not only biology, physics and chemistry, but also maths, earth sciences and other fields, especially interdisciplinary topics
- Is printed in English; free print copies are distributed across Europe
- Is freely available online in many European languages.
